**DETAILED ACTION**

***Election/Restrictions***

A telephone call was made to Attorney Samuel Kais on November 30, 2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

This application contains claims directed to the following patentably distinct species: a pathologic change and a compound that is capable of inhibiting TGF- $\beta$  signaling. The species are independent or distinct because one species is a condition while the other species is a compound.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, Claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species (the examiner is requesting that the applicant elects a specifically named or defined pathological change and a single specifically named or completely defined compound capable of inhibiting TGF- $\beta$  signaling) that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit: 1616

the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
